DEPARTMENT OF EDUCATION ANNOUNCES NEW APP FOR SCHOOL INFO

LITTLE ROCK — The Arkansas Department of Education today announces a new mobile app for smart phones and tablets that provides easy access to information on Arkansas school districts, schools, and educational cooperatives. It can also be used on desktop and laptop computers.

The app was developed by the Department's Research and Technology Division. It includes handy contact information and quick links to maps locating each school. The app is available for use by the general public, including educators, news media, and anyone interested in Arkansas schools.

To Access the Site:

Open a browser and navigate to: <https://adedata.arkansas.gov/mobile/>

Apple Devices (iPhone and iPad):

Using the device options, click the action button and select “Add to Home Screen,” which will save an app shortcut icon on your iPhone or iPad, allowing quick access.

Navigation:

- Select a category: Cooperatives, Districts or Schools.
- Select the specific cooperative, district or school from the scroll list.
- Information will display with contact information and other data.
- Selecting the e-mail will allow for a quick e-mail to be sent.
- Selecting the phone number will allow for a call from a smart phone to the school with a touch of your finger.
- Selecting the address will open Google maps for driving directions.
